

# condition 1<sup>®</sup>

Now you're ready.

MADE IN USA TEXAS

### **Made in Texas**

Condition 1 cases are designed to protect your electronics, camera equipment, video equipment, rifles, pistols, collectibles and anything else that needs a second skin.

At Condition 1, we strive to provide you with the highest quality products at an affordable price. Condition 1 waterproof cases meet or exceed industry standards, while our low overhead allows us to pass real savings on to you.

Condition 1 is the consumer retail division of Royal Case Company, a 35 year old custom soft sewn bag and plastic case manufacturer with manufacturing locations around the world in places like China, Thailand, Myanmar, India, Mexico and in the USA in Sherman, Texas. All Condition 1 plastic hard cases are made in North Texas.

Condition 1 products are sold on Amazon.com and on our website at [www.condition1.com](http://www.condition1.com).

Please take the time to register your new product at [www.condition1.com/register](http://www.condition1.com/register)

### **Waterproof Case Warranty**

Manufacturer fully warrants against defects in materials and workmanship for the life of the case by the original owner. The case is guaranteed to be water resistant up to 3 feet under water for 30 minutes. The warranty does not cover the foam or any contents of the case. Liability to manufacturer is limited only to the case and no contents. Case must be properly closed with no defects or damage to the o-ring gasket or valve to fully cover warranty. If the case breaks manufacturer will replace at no cost to you as long as you are the original owner of the case. Damaged handles, latches, valves, and gaskets can all be replaced in the field and will be supplied at no charge in the case of any defect. To request parts you must have original receipt or purchase agreement and must have a return authorization number from the manufacturer or place of purchase. All warranty claims of any nature are barred if the carrying case has been altered or changed in any way.

### **Certifications**

ATA Specification 300

IEC 60529, IP67

### 1 Patented Latches

Patent #8,944,476.

### 2 Rubberized Handles

Softer grip for added comfort.

### 3 Automatic Air Valve

Automatic air pressure release valves make our cases airline friendly.

### 4 IP67 Dust & Water Proof

A rubber gasket provides an air tight seal.

### 5 Lockable

Add your own locks for security.

### 6 Steel Pin Hinge

Steel adds strength.

### 7 Stackable

Exterior grooves help additional cases snap into place.

### 8 Customizable Foam

Pull apart or cut the foam to the shape of your items for a custom fit.

### The Condition 1 Difference

- Condition 1 patented latches make our cases easy to open and close using one or two fingers.
- Not all hard cases are IP67 quality. IP67 means that the cases are submersible in water for 30 minutes at 3ft of depth. So rest assured knowing that your valuables are safe and secure in most environments.
- Rubber molded grips makes our cases a joy to work with for every day usage.
- An automatic pressure release valve makes Condition 1 cases airline friendly whether you take them as carry-ons or ship them in the cargo hold. Our cases can withstand a large amount of abuse and still perform as new.
- Convenient lock holes allow for added security.
- Our wheels were made for on or off-road use. You won't find these on any other waterproof cases on the market.

## ECONOMY CASES

### ECONOMY CASES

Sometimes, waterproof is overkill. That's why we offer the light weight, yet tough series of REBEL cases. They will save you money and look great too while providing protection for your gear on the go.

Interior foam included.
